

Software Developer

What are we looking for?

As one of our team of Developers, you will be responsible for providing our clients across multiple industry sectors with an exceptional digital experience. In line with one of our core values of Relentless Client Focus our developers are responsible for supporting and advising our clients towards world class outcomes. Skills are important to us, but so is our team. So if you are looking for a place where you can roll your sleeves up and get the job done within a truly supportive team, read on!

Your success will be measured through:

- Your passion for developing great technology
- Your ability to meet deadlines and agreed-time frames
- Your commitment to the quality of your code and design
- Your ability to deliver outcomes which reflect our clients' requirements
- Your commitment to the Asta values

To thrive in this role you will need to have:

Unmatched attention to detail – you're a natural when it comes to noticing the little things others may miss.

A desire to be a true team player – you love sharing your knowledge with others and are not afraid to ask for help when you need it.

An adaptable nature – you don't get stressed when priorities change and can juggle your workload when the targets are moving!

An understanding of the importance of staying ahead of the game and anticipating complications before they become problems.

The confidence to represent Asta to our clients in a professional manner bringing the benefit of your experience to the conversation appropriately.

Spectacular written and verbal communications skills – you know when to listen and when to speak, and how to write clear and concise communications for your audience.

We want you to be successful in this role. If you have experience in most of the technologies and frameworks below you will be well on your way!

- Support – critical thinking and ability to solve complex problems, testing and debugging
- .Net / C#
- SQL Server / TSQL
- Ruby
- Angular
- AWS / Azure Infrastructure experience

- iOS / Android development

It would be great if you also had experience in: (but we can teach you if you don't)

- Blockchain experience
- Frontend / Design (UI & UX Design)

At Asta we know that an organisation, no matter how well designed, is only as good as the people who live and work in it. Our people are passionate about delivering outstanding customer service in a fast paced, cutting edge, IT environment.

Everything we do at Asta is driven by our core values: One Team, Relentless Client Focus, Trust, Loyalty & Honesty. Our people love what they do, enjoy working together and thrive in our culture of growth and development.

So what are you waiting for? Apply now! We'd love to hear from you.

We are especially keen to hear from anybody who has been impacted by job loss due to COVID-19 or is otherwise available immediately.

Please note:

- All our teams are currently working from home with an option to continue wfh post-covid
- You must have the right to live and work in Australia
- All short-listed candidates will be subject to a National Police Check
