

Junior Developer – Front End and Design

Asta is a leading full-service technology and consulting agency. Beyond our IT acumen in software, web and mobile app development, our fit-for-purpose managed service solutions and our ground-breaking AI and blockchain technologies, there's something more.

Our relentless commitment to people. And not just our customers, but our team.

Our ideal team member

We are looking for someone who is enthusiastic about what they do, excited about their career progression and eager to take on new challenges with a learning mindset. You will be joining our incredible team of highly experienced developers responsible for providing our clients across multiple industry sectors with an exceptional digital experience, involved in projects developing and designing websites, web applications, mobile applications, print based materials and digital advertisements.

Your success will be measured through:

- Your passion for developing great technology
- Your ability to meet deadlines and agreed-time frames
- Your commitment to the quality of your code and design
- Your ability to deliver outcomes which reflect our clients' requirements
- Your commitment to the Asta values

To thrive in this role you will need to have:

Unmatched attention to detail – you're a natural when it comes to noticing the little things others may miss.

A desire to be a true team player – you love sharing your knowledge with others and are not afraid to ask for help when you need it.

An adaptable nature – you don't get stressed when priorities change and can juggle your workload when the targets are moving!

An understanding of the importance of staying ahead of the game and anticipating complications before they become problems.

Spectacular written and verbal communications skills – you know when to listen and when to speak, and how to write clear and concise communications for your audience.

We want you to be successful in this role. If you have experience in most of the technologies and frameworks below you will be well on your way!

Adobe Creative Suite Skill Set

- Photoshop
- Illustrator

- Adobe XD
- Indesign (Nice to have)
- Premier Pro (Nice to have)

Frontend Skill Set
